### TELEGRAPHIC

#### CRIMINAL CALENDAR.

##### Shocking Murder in Denver—Other Devillies.

St. Louis, 18.—Latest advices from the five thieves in the Lower Mississippi valley at they had several of the wretches under surveillance. The owners of the vessel had telegraphed Governor Mark, of Tennessee, to protect them by force if necessary.

Denver, Col., 18.—A traveling salesman of the well known tobacco house of Abel Brothers, named Marbury, was yesterday morning shot to death about 11:30 o'clock, at a house of ill-fame. A bullet went through his mouth and brain. The body was found in a hallway at the rear of the building. Suspicion centers on two men who came to the house with him in the early part of the evening.

Denver, Col., 18.—Police, this morning, arrested Carrie Smith, proprietress of the house of ill-fame where the murder of Marbury was committed last night. She was found in the room where the murder took place. A quarrel, it seems, occurred over a fan. Carrie Smith applied an opprobrious epithet to Marbury, when he left the room and she followed him down stairs, and struck him with a bottle. A friend of the woman then attacked Marbury, and struck him on the back of the head with a blow with a revolver which entered the skull. The city is much excited over the affair. Marbury leaves a wife and three children.

Beckham, Tex., 18.—Rube Caruthers, colored, on trial for shooting cattle, while under guard last night, the guards were overpowered by forty disguised men and Caruthers lynched.

#### Dashes.

Washington, 18.—Kate Dedon, the colored lady who was appointed to the care of the ladies' waiting room of the Senate by Charles Sumner, and who has been retained up to this time, has just been discharged by the sergeant-at-arms.

Dallas, Texas, 18.—A mixed train on the Texas Pacific road, near a station near Barton Creek, was thrown from the track and nine cars were demolished. Two men, Drum and Turner, were killed, and several injured.

New York, 18.—A sporting paper announced that Dr. Ruth, a California rifle driver, will give an exhibition at Brooklyn Driving Park, Parkville, L. I., on Saturday next. His wife will also exhibit her skill with the rifle. They will shoot glass balls.

Fifteen persons were precipitated into a deep cellar at Mulberry and Worth Streets this afternoon, by an iron grating giving way, and were more or less injured. The people had gathered to witness two police officers arrest a drunk woman. Seven persons were severely hurt.

Chicago, 18.—Journalists: We continue to receive reports from the "corn belt" of this state, to the effect that the protracted drought will greatly reduce the anticipated yield of corn in that region. The stalks are drying up in the fields in some places.

New York, 18.—Baumgartner Burke, the young man who shot at a seriously wounded the son of John G. Thompson, sergeant-at-arms of the house of representatives, has been again nominated to be a candidate for Police, by Congressman Welback, of Texas.

#### No Discrimination Against Chinese.

Washington, 18.—The treasury officials have investigated the legal standing of Chinese merchants, situated in the United States, and have decided that they are to arrive in San Francisco shortly and will submit their report in a few days. Under the law of the United States the President is authorized to issue his proclamation permitting all Chinese vessels to enter the ports of the United States, if being first shown that no discrimination duty is levied in China against American vessels. China charges an entry fee of 14c a ton every time a foreign vessel enters a Chinese port. In the United States a tonnage duty of 20c per annum is charged. This the Chinese vessel would be obliged to pay, but the President, by proclamation, may remit the alien tonnage tax of \$1 per ton and 10c per cent on cargo. As such an act is before him, the President will prepare his proclamation which will accord to Chinese vessels the same privileges as are accorded by vessels of the maritime countries of Europe.

#### Disastrous Floods in Prussia.

Berlin, 18.—The reports from the provinces in regard to floods are now daily. Not only has Silesia suffered terribly, but also East and West Prussia. The harvest is almost totally destroyed, and things are so serious that divisional maneuvers will be put off for this year. The harvest is almost totally destroyed, and things are so serious that divisional maneuvers will be put off for this year.

18.—Papers are again full of disheartening reports of the inundations in Silesia, Posen, and East and West Prussia. Crops in certain parts of these provinces may be said to be wholly destroyed. Areas are lost, railways and rivers broken down, villages flooded, farms inundated and vast tracts of grain-growing land converted into swamps by torrents of rain. A great famine is feared in all the above-named provinces.

#### Importing Negroes Into Indiana.

Chicago, 18.—Times' Indianapolis: Several days ago a colony of negro miners were sent from Richmond, Virginia, into Fountain County, by James Luz. Wm. H. English came to date for the first time to the county to Indianapolis, to-day, and demanded to know why he was bringing negroes into Indiana, expressing his indignation in the strongest terms. Luz is a strong democrat and responded that he could not get white men and the question of color had not entered into his consideration. He had spent \$2,000 in transportation and should allow no one to dictate to him. English has been particularly prominent in charging republicans with importing negro voters, yet the first case he investigates is that of a democrat and in Dan Voorhees' own district.

#### Southern Census Returns.

Chicago, 18.—Inter-Ocean's Washington: While the census officials are loth to admit that anything is wrong with the enumeration in the south, they express a determination to have certain suspicious counties reenumerated under the supervision of agents sent from Washington. In this way it will be very easy to detect and punish any fraud.

In this way it will be very easy to detect and punish any fraud. The whole south will be gone over again with provisions of such character as to forbid cheating. Of course southern politicians will resent any such move, and it is not accomplished, if necessary, before the confederate congress assemblies again, the brigadiers will forbid it on the score of economy or some other pretense.

#### New Ideas in Suicide.

New York, 18.—The latest phase of the suicidal mania appears in the Herald, which says a person writes announcing his intention to shoot himself in the head to-day at a certain place in Central Park. We publish it elsewhere. It may be a hoax or the writer may be a fanatic, and there may be some loss of time for publishing such a note, but we recall the fact that a couple of years since a man called at the Herald office and announced his intention of killing himself the next day. He was looked on as a fraud, but he kept his word and left for the corner a note to the editor of the Herald.

### IRELAND.

#### Cork, 18.—The gunpowder found in the railway tunnel under the barracks is supposed to be the first installment with the object of blowing up the barracks, and though the authorities make light of the matter, there is undoubtedly some alarm. Rioting at Belfast has been resumed.

The Times says the order for the dispatch of 300 more marines to Ireland has been rescinded.

Dublin, 18.—Twenty-two of the Belfast rioters have been sentenced to six months' imprisonment.

At Dungannon, pig-killers are treating two English persons who were wounded by bayonets or ball.

A land meeting was held yesterday at Leno's, near Kilmory, the residence of Mr. Mitchell, Henry, liberal Unionist, member of Parliament for Galway County, and James Holpach, of the New York Times, who have been among the Dublin officials have been urged pressing for a renewal of the coercive act. The Irish in the west of Ireland, it is now certain, will not be abundant, but unusually early.

#### THE NEXT CONCLAVE.

##### It is to be Held in San Francisco.

Chicago, 18.—The committee on location of the next triennial convocation of the Knights Templar, report to the grand commandery in the city of San Francisco as the place of meeting in 1883. The convocation has not yet acted, but as the report is unanimous they will probably endorse it. The San Francisco have offered large inducements to the convocation, it being understood that they agree to pay all expenses of the knights after they cross the Missouri River on their way to California. They predict that there will be an immense attendance of knights and visitors, and are enjoying at what they justly consider a great victory for the Pacific Coast. Their treatment of the knights, which has been open-handed and hospitable in the highest degree, has tended to secure favorable consideration of the plan to hold the convocation in San Francisco, and the inconveniences of hot weather and all the management which have characterized the meeting here make the Knights' decision of a better arrangement in future.

#### Foreign Flasher.

Rome, 18.—It is denied that the Italian ambassador at London and St. Petersburg have been summoned here. The correspondent of the London Standard on the 10th inst.

Summit, 18.—Rumors have reached here that Ayob Khan attacked the south side of Candahar at Shikarab Gah. The commanders kept up from morning to evening on three sides of the city. The British loss is trifling.

Berlin, 18.—The last obstacle to the appointment of Count von Hatzfeldt, secretary of state for foreign affairs, has been removed, his marriage with an American lady, Miss Mullin, having been legally dissolved.

London, 18.—Tombrook's "Entre Nous" won the Donham handicap plate at Epsom.

The secretary of state for war, replying to a question in the House of Commons, said that the terms of the armistice between Ireland and Great Britain were not yet settled. He went there in the ordinary course of business.

#### Political Points.

St. Louis, 18.—Democrats of the Seventh District, renominated John F. Phillips for Congress, by acclamation, to-day.

St. Louis, 18.—Democrats of the Seventeenth Illinois District, renominated William M. Morrison for Congress. Waco, Texas, 18.—R. Q. Miles was nominated for Congress, by democrats of the Fourth District.

Council Bluffs, 18.—W. P. Hepburn was nominated for Congress, by the republicans to-day, on the 34th ballot.

Louisville, Va., 18.—Democrats of the Ninth District, renominated Tom Turner for Congress.

Fredericksburg, Va., 18.—Judge John Critcher was nominated for Congress, by republicans of the First Virginia District.

#### Her Last Hour.

New York, 18.—The Herald's Paris has the following details of Miss Neilson's last hours: Dr. Monnier is led to believe from certain symptoms that a mental trouble was connected with her illness. He asked the patient if there was anything in her mind. She replied "Yes." While Monnier was attending to a box into the room, through the open window. Miss Neilson was much alarmed. "Look at that great bird flying about me," she exclaimed in a terrified tone. The intruder was not got rid of without difficulty. After Monnier's departure Dr. Gaillon was summoned. He looked at the patient and said: "Miss Neilson's end was calm, but she suffered terribly for hours before it."

#### Our Merchant Marine.

New York, 18.—The Tribune: While England exports 424 first class steamers in the foreign trade of the United States, we employ only about sixty-one ourselves, and having only seven Cuban and thirty-five only fifteen or sixteen.

These figures are startling. They would at any time supply material for profitable trade to the United States, but because France is heavily subsidizing lines of steamers to ply to our shores, and because China, which commands the cheap labor in the world, is preparing to trade with native ships too. The outlook is discouraging. A convention has been called to discuss this question and it will meet at Boston on October 5th.

#### Democracy and Martial Law.

Leadville, 18.—Causes of leading delegates were called to order to consider the martial law resolution, and considerable feeling was exhibited. The Democrats, this morning, says we will not take the convention place and in most unequivocal and emphatic terms, the introduction of this resolution, or rather its passage as a declaration, will prove the starting wedge and will sever and divide the democracy that its defeat at the polls will surely follow. The meeting is affecting only local interests of Leadville, and the party throughout the state should not tolerate its destroying presence in the convention.

#### The Prices.

Chicago, 18.—At a late hour this evening the judges made the following award: First prize to Roper Commandery of Indianapolis; second prize to Demolier of Louisville; third prize to Reed of Dayton, Ohio; fourth prize to Damascus, of St. Paul. Special prize for mounted men to the Demolier, of Grand Rapids, Michigan.

#### The Command.

Washington, 18.—General Sherman, speaking of the recent position of aide-de-camp on the staff, says that he will not make the announcement of the officer he has determined upon in his own mind until after his return from his visit to the Pacific Coast with the President, which will consume about two months.

### TROPIC FRUIT LAXATIVE
